SUMMARY

Senior Product Designer with 11+ years in design, including 7+ years focused on UX and product design and the last 5+ leading experience strategy at ACV Auctions across complex, multi-stakeholder platforms. Acted as design lead and knowledge expert for all financial and pricing experiences at ACV Auctions — holding sign-off authority on pricing design updates and leading design-team training on white-label component strategy — while guiding teams through ambiguity and aligning Product, Technology, Research, and business partners around a shared experience vision. Proven track record turning journey mapping, information architecture, and workshop facilitation into scalable design standards, including a 20% efficiency gain on a core mobile workflow and design leadership behind a \$300M ARR marketplace initiative. Looking for the next opportunity to bring experience-led design leadership to a team solving complex, high-stakes problems at scale.

CORE COMPETENCIES

Experience Strategy • Journey Mapping • Information Architecture • Service Design • Content Strategy
Systems Thinking • Design Leadership & Mentoring • Workshop Facilitation • Stakeholder Alignment
Cross-Functional Leadership • Accessibility & Design Standards • User Research • Usability Testing
Complex Workflow Design • Figma, FigJam, Storybook • Miro, Webex • Responsive Web & Mobile

EXPERIENCE

Product Designer III | ACV Auctions

2021 – 2026

Automotive marketplace platform powering dealer inventory, pricing, appraisal, and auction workflows across retail and wholesale channels

- Served as design lead and subject-matter expert for all financial and pricing experiences holistically, with sign-off authority over every pricing-related design update across the platform.
- Led experience strategy and end-to-end product design across complex marketplace workflows, shaping product direction from discovery through launch across pricing, inventory, appraisal, and marketplace experiences — partnering closely with Product, Engineering, and business stakeholders.
- Defined and led the white-label component strategy, then trained and onboarded the design team — including junior designers — on the process, and oversaw its ongoing application across projects.
- Facilitated research and validation sessions with dealer stakeholders to uncover needs, test concepts, and inform decisions, achieving ~4.3/5 adoption intent and strong qualitative support for New Car Pricing v2.
- Mapped and simplified complex inventory and appraisal journeys for MAX Mobile, improving workflow efficiency by 20% and supporting launch with zero P0/P1 issues.
- Designed cross-product experiences for ~4,000 franchise sellers, creating a more cohesive end-to-end journey that contributed to 64K incremental units per month and a \$300M projected ARR opportunity.
- Established reusable components, documentation, and scalable design practices; supported design operations, onboarding, and team ramp-up while mentoring designers on experience-led decision-making.
- Drove faster alignment and decision-making by pairing Figma, Storybook, and AI-assisted prototypes with structured stakeholder workshops in Miro and Webex.

Senior Marketing Associate | Greystar

2020 – 2021

Digital marketing and creative initiatives across multifamily communities, driving brand engagement, lead generation, and leasing performance

- Directed custom website and digital experience initiatives, partnering with development teams to improve UX/UI quality, usability, and brand consistency from concept through launch.
- Developed end-to-end brand systems and integrated marketing assets, creating cohesive customer experiences across digital, social, advertising, and property marketing channels.
- Increased stakeholder participation by 33% by aligning cross-functional teams around objectives, creative strategy, and execution in complex, ambiguous environments.
- Built presentations and digital content connecting business goals to design decisions, improving stakeholder cohesion across teams.

Senior Graphic Designer | Alliance Residential Company

2018 – 2020

Creative and digital design across web, email, social, advertising, presentations, print, and environmental experiences for a large residential portfolio

- Grew the portfolio of high-value clients by ~40% by delivering high-quality custom creative and strengthening client relationships.
- Elevated design quality across the team by reviewing junior designers' work, providing creative direction and feedback, and establishing scalable standards, templates, and workflows.
- Championed UX, web design, and usability best practices, partnering across marketing and digital initiatives to create more intuitive, consistent, customer-focused online experiences.

Senior Designer | GoDaddy

2016 – 2018

Customer-facing digital, marketing, and brand experiences at scale

- Led a high-performing design team delivering customer-facing digital, marketing, and brand experiences, achieving top client satisfaction scores while sustaining the team's highest volume of creative output.
- Spearheaded development and launch of GoDaddy's first customer self-service logo design offering, creating a scalable new way for customers to build and customize their brand identities.
- Contributed to customer-facing work recognized with a Stevie Award for Technology Excellence, spanning technology, design, and customer experience.
- Led creative direction, design reviews, and mentorship, establishing standards and workflows that improved quality, consistency, and efficiency.

EDUCATION

Bachelor of Arts, Graphic & Web Design

The Art Institute of Phoenix
